Dear Mr. Secretary,

Speaking for myself as a person who is Deaf, CLOSED CAPTIONING has enriched my life by allowing me to visually access information. When captioning is not provided, I am excluded (by reason of my disability) from that information.

I commend Congress in their support of the Telecommunication Act (FCC 95-484). Closed Captioning and Video Description of Video Programming is a benefit to everyone. I am asking that you consider having all programs captioned. It is frustrating when I am excluded from a program which I have an interest. I do not feel someone else should determine what 'class' of program I would be allowed to have access.

Thank you for considering my request and looking forward to having access to all the information that everyone else has.

Sincerely,

Eileen Seremeth
